## Machine Description

- 1.The entire machine adopts a fully enclosed structure, enhancing its aesthetic appeal and safety.
- 2.This machine is mainly composed of a large conveyor belt feeding mechanism, a small conveyor belt discharging mechanism, a testing and sorting mechanism, control electrical appliances and testers. Workers place the magnetic rings to be sorted onto the large conveyor belt, orienting them in the upward direction, and then send them through the conveying belt to the testing and sorting mechanism to conduct individual tests and sorting of the magnetic rings. The entire process of feeding, discharging, conveying, testing and sorting is fully automated.
- 3.It has strong versatility. By replacing the sorting disc, it can test and sort magnetic rings of different specifications within a specified range. The operation is simple and the adjustment is convenient.

## Technical Specifications

Winding specification: Outer diameter  $\Phi$ 15mm - 35mm

Strip width  $\leq$  15mm

Sorting grades: From low to high

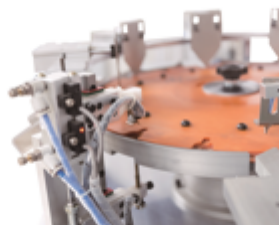

System test error:  $\leq$  0.05% (depending on product performance)

Sorting accuracy no less than 99%

Air pressure requirement: 0.5Mpa - 0.8Mpa

Power supply: AC220V, 50Hz

Equipment size: (L\*W\*H) 2400\*1200\*1400mm

## Advantages

- 1.The testing speed is fast, the production efficiency is high, and the sorting accuracy rate is high.
- 2.The type change adjustment is convenient, and the production is fully automated.
- 3.It can effectively reduce the number of production personnel and save costs.

## PRACTICAL APPLICATION :

### TRAINING CUSTOMER TO OPERATE WINDING MACHNE :

- 1.All service engineers with 10 years experience are gotten special technology training, who can deal with various breakdown problem.
  - 2.Guide the user to use accurately and how to maintain the Digital CNC Wire Coil Winding Machine.
- Provide free consultation about production process technology of electronic products.
- 3.In order to guarantee the machine used normally, we'd have training on how to operate, use and maintain our product by English manual, video, guiding on line.

## PACKAGING:

Packaging Material: Carton/Wooden case with foam inside.

- 1.General package(Paper carton or plastic bag): For small equipped parts for Digital CNC Wire Coil Winding Machine, Package it with form and pack paper to guarantee unbroken during the transport.
- 2.Wooden case package: For larger scale Digital CNC Wire Coil Winding Machine ,we have special skilled carpenter, who would make the proper wooden case with exact thickness,density,length. The upper row ↑marked on the outer wooden case. Buffer material would be put in the wooden case to prevent crack and shock.

**FACTORY:**

We-GREWIN INDUSTRIAL GROUP is expert in winding machines lines for 28Years. Our Grewin in have ISO9001:2015,CE approvals,Machines'Patents,"high-tech enterprises"by the government.
